Solution Features and Benefits

Tactical Engineering Solutions helped energetic startup Eclipse Aviation to deliver at volumes unprecedented in commercial aviation. Through application of Toyota Production Systems' approaches to aircraft manufacturing, the facilities and working practices were revised to manufacture almost one jet aircraft per day.

"Tactical Engineering Solutions did outstanding work at Eclipse and we're grateful for the hard work and outstanding results"

Todd Fierro, VP of Manufacturing, Eclipse Aviation

About Us

Tactical Engineering Solutions is a veteran-owned disadvantaged small business corporation, serving the business needs of both private and public sectors. Headquartered in Detroit, MI, the firm's roots originate in the automotive industry and have expanded into other industries, which include Electronics, Aerospace, Healthcare, Power, Department of Defense, and more.

It is this rich heritage that allows Tactical Engineering Solutions to support our clients with a first-hand understanding of the challenges that businesses face.

Tactical Engineering Solutions is registered with Dunn & Bradstreet and the Federal Government's Central Contractor Registration system (CCR).

VISION

Tactical Engineering Solutions executes programs that are on-time, on-budget and technically accurate to help our clients reduce overall cost and improve throughput.
